Introduction:

What is the reason for marriage within a relationship? Marrying a sister's daughter is also a custom that has been around for a long time. Why should we go out and marry other girl when there is a bride in our family? What happens if we go out and get a bride? If we go out and get a bride, the bride will have problems with her family, that is, the groom's family, the mother-in-law and daughter-in-law, and because of the reason that the property should not go out, and because of the culture and customs, how will the girl take care of her son if she gets a girl outside! The boy's parents are less likely to know many things about that girl. If it is a sister's daughter, they will have seen that girl since she was born, so marrying a sister's daughter will be less problematic, because they do not need to inquire much about that girl, and because they do not need to be afraid of that girl, and because their property should not go out when they marry a sister's daughter. This marriage has been around for a long time.
