The most comprehensive and accurate of the marriage compatibility methods is the planetary compatibility method based on the Birugu Nandi Nadi method. This study aims to explain how to find out marriage compatibility in a very detailed and accurate way using the planetary compatibility method.

Key Words: Marriage Matching Compatibility, Planetary Matching Compatibility, Planetary Compatibility in Birugunanthi Nadi Method, Conjunction of the Planets

Introduction:

The most common method used by astrologers and people to find marriage compatibility is star matching. When looking at marriage compatibility, they give importance to star matching. They look at marriage compatibility by examining the ascendant compatibility, doshas, and Dada pukthi analysis in addition to star matching. However, some marriages are affected by divorce, disagreements between husband and wife, infertility, diseases, accidents, kinship, short life, and extramarital affairs. In some marriages that are specially done for marriage matching, the reason for such problems is that both the planets in the horoscope are in the wrong combination. To avoid such marriage problems, there is an important compatibility that needs to be taken into account, beyond star matching, marriage defects, ascendant compatibility, rasi based horoscope matching, and Dada pukthi analysis, that is planetary compatibility.
